

# ROUNDTABLE

## FOR OWNERS & GENERAL MANAGERS

November 29, 10am-3pm • Presented by: Mark Miller

### Overview:

One of the great challenges in business is who to turn to in day to day circumstances; as leaders we all know we cannot discuss all issues with our teams. As the leader, sometimes it's best to turn to our peers, outside mentors and leaders who can help us think at a new level.

Join us for a one day interactive workshop designed for you, the leader, to learn from and grow from your peers; sort of an advisory board to help each other improve their business and life, taking them both to the next level.

If you are looking for the next level, then this is the day for you. You must commit to full honesty, to openly discussing issues and challenge yourself and your peers to the next level of thinking. If you can do that, then join us on Nov 29th for a day of networking, connecting and growing yourself and your business in ways never thought possible.

*Register Today!  
Space is Limited.*
